

Story of A Family Having Children with Disability: A Reflection on transitioning livelihoods with CRAAIN livestock (goat) Support

Received livestock support, Deemed as "Model HH"

- Selected as the most vulnerable HHs
- Received Goat Support & duck support
- Refresher training on home-based agriculture and livestock rearing
- Deemed as a "Model HH",

Plan to start a goat farm on a commercial basis

- Will have a firm of 8/10 goats
- Will commercially sell dairy milk & goats
- Will bear medical expenses of disabled children from goat farming

CRRAIN to support Chronically vulnerable

- Narrow down income-generating options,
- Chronic shocks,
- Difficult to bear the medical expenses of disabled children
- Selected as CRAAIN beneficiary
- Received hygiene support

Plan in 2026

2022

2023

2021

2020

Improved skills in livestock rearing & Initiating Home-based Agro Production

- Received counselling for nutrition-sensitive behavioural changes, home-based IGA
- Received training in Agriculture & livestock rearing
- 3 times agro-input support from CRAAIN
- Started Home gardening

Scaling up goats and started to add value to family

- Successfully bred two baby goats from CRAAIN-provided one
- Consuming daily nutritious dairy milk from CRAAIN provided goat
